EDUCATION

University of the Philippines Cebu

BS Computer Science - **1.55 GWA (Cum Laude)**

2022-2026

Cebu, Philippines

ACADEMIC RESEARCH

CEBIDN [↗](#)

2025 – Present

A Computational Framework for Cebuano Idiom Identification, Disambiguation, and Normalization Cebu, Philippines

Accepted to EMNLP 2026 (Main Conference) | Publication in Progress | Budapest, Hungary | **Primary Author** | [GitHub](#)

- Developed a two-stage NLP pipeline leveraging fine-tuned CebBERT for BIO-tagged idiom detection and Qwen LLM for literal normalization, outperforming monolithic LLMs in low-resource idiom processing.

COURSEWORK / SKILLS

Languages & Frameworks: Python, C, C++, TypeScript/JavaScript, Next.js, React, Tailwind CSS

Architecture & Design: SQL & Database Design, RESTful APIs, System Architecture, Data Structures & Algorithms

Tools, Cloud & Workflows: GenAI Integration & Prompting, Cloud Deployment (Vercel, Railway), Agile/Scrum, Git

PROJECTS

CHR Case Management & Monitoring System [↗](#) | Next.js, Tailwind CSS, Supabase, Vercel

2025

- Designed a multi-role case-monitoring web platform for the Commission on Human Rights Region VII, translating complex legal workflows into a secure system with granular access control and status tracking.
- Role:** Full Stack Developer | [Live Site](#)

Inspectify [↗](#) | Expo, Python, Flask, MySQL, Gemini (Spatial Understanding), Railway

2024-2025

- Developed a mobile app leveraging Gemini's spatial understanding to identify home damage from photos, generate maintenance advice, assess regional disaster risk, and locate local repair services.
- Role:** Full Stack Developer | [GitHub](#)

Compile Studio [↗](#) | MIPS Assembly, Python, Tkinter, Mars.jar

2024

- Designed and developed a desktop IDE from scratch for a custom programming language ('Brainrot'), incorporating a built-in compiler and a speech-and-text-enabled conversational AI coding assistant.
- Role:** Project Lead & Full Stack Developer | [GitHub](#)

EXPERIENCE & EXTRACURRICULAR

University of the Philippines Cebu

2026 – Present

Substitute Full-Time Instructor

Cebu, Philippines

- Appointed to a 14-unit teaching load instruction across core undergraduate curricula: **CMSC 11** (Introduction to Computer Science) and **CMSC 123** (Data Structures), facilitating lectures, laboratory sessions, and machine problems.
- Serve as a member of the Department of Computer Science Research Committee, contributing to departmental research initiatives and academic governance.

Lexmark-Xerox Global Services Support

2025

Asset Management Intern

Cebu, Philippines

- Processed and managed large-scale enterprise asset datasets within the Lexmark-Xerox global services infrastructure, collaborating across teams to ensure operational data integrity.

Team Kawayanan (CEB-I Hacks)

2025

Hackathon Finalist

Cebu, Philippines

- Top 25 finalist out of 87 teams (400+ students) at MCIA's regional AI hackathon, prototyping a tourism solution under strict time constraints.
